Quality Customer Service

Design Specialties, Inc has an incredible team across the board from design, to manufacturing, to sales. Our main operation is located in Connecticut which enables the team to work together to develop, manufacture and test products and materials. We offer a wide selection of tableware products in many unique materials and colors.

We believe you deserve the highest level of personal service and quality products. We listen to your needs to find the most suitable option to meet your food service operation goals. Your satisfaction is our main priority. Give us a call and see the difference!

MATERIALS

At Design Specialties we are constantly evaluating materials. Most of our products are available in multiple materials and colors. Our sales specialists will work with you to determine the correct material to meet your needs. All materials meet FDA food contact requirements.

FLEXIBLE MATERIALS

XTREMFLEX

- Perfect for high-security areas
- Material bends but does not shatter or break
- Can be twisted & crushed - maintains original shape
- Cannot be sharpened into a weapon

TUFFLEX

- Temperatures up to 210°F
- Flexible material for high-security areas

TX-506
XtremFlex Tray

COMMON MATERIALS

POLYCARBONATE

Temperatures up to 230°F

Special blend of polycarbonate that is extra strong and durable. Shiny, long-lasting finish.

Will not scuff or stain. Our blend resists chemicals better than regular polycarbonate.

ECONO BLEND

Temperatures up to 210°F

Special blend of copolymers and other olefins for extremely break-resistant, long-lasting, economical products. Will not break down with chemical use.

NYLON

Temperatures up to 230°F

Pliable

Virtually unbreakable

HIGH TEMPERATURE MATERIALS

ULTRAGUARD

High-temp material up to 400°F

Cook-chill or re-therm

Virtually unbreakable

REThERM 400

High-temp material up to 400°F

Cook-chill or re-therm

Good impact

Transparent Amber

HI-IMPACT

High-temp material up to 400°F

Cook-chill or re-therm

High Impact

Transparent Amber

HI-FLEX

High-temp flexible up to 380°F

For high-security areas

Seam-less design

Insulated Trays

THE ULTIMATE IN FOOD DELIVERY

Our insulated trays keep hot and cold food separated. Stackable, with or without lids. Patented bonding technique creates a permanent bond that eliminates the seam - no splitting or leaking! Stain-resistant, dishwasher safe.

*Stacks with
or without lid*

**DOMED
UNDERSIDE**

Stacker Delivery Trays

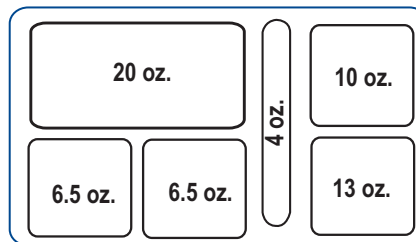

ONE-PIECE CONSTRUCTION DOES NOT ABSORB WATER

Flatware slot keeps hot and cold food separate for maximum temperature retention. Domed underside helps prevent food from touching stacking tray. Dishwasher safe.

Another great way to deliver meals
